

statistics

All units have been constructed with the operator in mind. We know what service calls cost you. Cabinets and electronic components are the best available. Real Forge® bases, solid oak control rail. Imported enameled real copper tops, tempered glass inserts. 19 inch Motorola Monitors. Pre tested logic boards. One year Warranty.

All three models available in kit form.
Octagon models are shipped with condenser, carmesh, copper tag,
tempered glass insert, \$400 consult with lock and complete
instructions to do your own conversion.

Rectangular models come complete with tempered glass or copper laminated top, combi or optional. Elenor can do the conversion for you if desired.

All units can be switched to 220 volt, 60 HZ operation for overseas operation and can be shipped K.D.

here's the line up

Model Thirty

The conventional thirty inch model will blend with the most luxurious decors, no flashing lights or other unacceptable features for the better cocktail lounges. Available with both game boards.

Model Forty

This all new unit has already proven to be a real champion in certain locations where chairs cannot be used. It can be played standing up or with bar stools. The opens up locations such as Theatre lobbies, waiting areas of high volume restaurants etc. Available with TRIPLE PLAY logic board whereby the player can select from Tennis, Soccer or Hockey. DOUBLE PLAY board offers Tennis or Hockey, Joystick Controls, three paddle sizes and adjustable scoring.

Rectangular Model

Our line baker. The workhorse of the game industry. This low priced unit fits against any wall, no loose power cords. Accommodates four players with plenty of leg room, tempered glass or (optional) copper top. Available with three game board or two game board with joystick controls.

All above units available in kit form. Any operator can easily convert old console video games to Cocktail tables with Elcon kits.
